We, the 7th grade teaching team, are eager to work with you during this important school year. Our goal for this year is to not only guide students as they achieve mastery of the 7th grade California Common Core Curriculum, but to also prepare students for the demands and rigor of high school and college. In order to do this, we have set high expectations and challenging academic requirements to guide students as they become interdisciplinary critical thinkers, and thoughtful readers.

An education is more than just what happens in the classroom. It is also about the coordinated support between the parents/guardians and teacher. As teachers, it is our goal to be available and to work with students and parents/guardians as a team for the success of all. You'll hear from us throughout the school year; expect positive shout outs and important updates regarding grades.

We're excited and privileged to be your child's teachers, and are looking forward to meeting you!

The Claremont P.E. team would also like to welcome students. Our goal is to provide a safe, healthy and fun environment for students to develop lifelong fitness and wellness habits. In order to be successful, **learners will have to be dressed and participate daily.** We will share more information around expectations in our syllabus and at Back to School Night.

My name is Ari Brown and I am thrilled to be entering my 3rd year as music teacher at Claremont. This year I will be teaching band to every 6th grader, band to 7/8th graders, and a before school jazz band open to all grades. All of my classes are performance based learning environments in which students get hands on experience preparing and performing challenging music literature. I place high value on student creativity and challenge musicians to express themselves from even the beginning stages of musicianship. Students will find success by entering each day with an open mind, a respect for the feelings of peers when they take risks, and a willingness to

try new things. While some families provide their students with instruments and the related supplies, no child who wishes to make music will be turned away. Please feel free to reach out to me if I can be of any assistance via email at ariel.brown1@ousd.org

Extra HELP for ALL 7th graders is available

7th grade students can get help, do HW, check grades **for any of their classes** most afternoon except Wednesday. Students who are in Bay Area Community Resources After School Program will need to first check in before attending teacher's office hours.

Family Technology Options

Tech Exchange provides low cost, sometimes free, computers to Alameda county students. This organization also partners with Charter to offer very low cost internet. If you do not have a computer at home, please find a time to see/email Mr. Leal for details or visit <https://www.techexchange.org>. Additionally, if you know other families in Oakland who might benefit from Tech Exchange, please pass on the website and Mr. Leal contact information.
