More Information about Measure Y
About Measure Y:

- $735 Million General Obligation Bond
  - Prop. 39 Bond requiring 55% voter approval

- District-Wide Projects Improvements
  - Facilities and Technology Improvements
  - Health, Safety and Security Improvements
  - Energy Efficiency, resiliency, and sustainability improvements
  - Improved utilization of unused, underutilized buildings and sites
2020 OUSD Facilities Master Plan identifies over $3 billion in needed repairs and upgrades at Oakland public schools.

2012 Measure J bond is nearly expired

Right now there is no other source of school construction funding:

- The State of California is running out of funds for school construction programs
- **If** the State or Federal governments provide school construction funds, we need to have local matching funds ready to go
Planning For Our Future Facilities Needs:

- Over two years of Master Planning process
- Focused assessments of all District schools
- Educational program elements
- Development of Facilities Condition Index to rank needs
- School Community outreach and input developing plan
Focusing on Facilities Priorities:

- Facilities Condition Index Ranking
- Regional distribution
- Project type distribution
- Future growth and/or demand
- Need to generate demand
- Other projects funded at sites through Measures B and J
- Projects not completed
Why Measure Y is Needed:

Specifically, Measure Y will:

- **Repair or replace** deteriorating classrooms, plumbing, potentially faulty electrical and air conditioning systems, and leaky roofs.
- **Remove** dry rot, termites, mold, and spores which can cause health problems.
- **Invest** in upgraded technology for distance learning and revamp classrooms and facilities to help children keep a safe distance from one another in times of pandemic.
- **Improve** core academic learning spaces and career technical education programs so students can go to college and/or acquire the real-world skills they need to compete for well-paying jobs when they graduate.

No money from this measure can go towards administrators’ salaries. All funds will be spent locally, creating good jobs for Oaklanders.

For Oakland public school students to succeed in college and careers, they must have safe, comfortable learning spaces and a solid background in core academic subjects like reading, science, math, engineering, and technology. Measure Y will make this possible.
Site-Specific Project List

- Marcus Foster Ed. Leadership Center
  - Planning, development for re-use community service, admin., alt. ed., CTE

- McClymonds High
  - Site renovation, expansion

- Melrose Leadership Academy -- Maxwell Park Elementary
  - Site renovation, expansion

- Piedmont Avenue Elementary
  - New Kitchen

- Coliseum College Prep Academy
  - Site, Classroom expansion

- Claremont Middle
  - Kitchen, Cafeteria, MPR

- Elmhurst United Middle
  - Site Modernization

- Garfield Elementary
  - Site Renovation

- Hillcrest Elementary
  - New Kitchen

- Laurel CDC
  - Site Renovation or replacement
Polling:

Top Messages:

- Our local schools need basic health and safety improvements. This measure will repair deteriorating classrooms, plumbing, potentially faulty electrical systems and air conditioning, and leaky roofs. Children deserve and need safe, clean schools so they can learn.
- This measure will help prepare Oakland schools to serve out students during a pandemic. It will invest in upgraded technology for distance learning and upgrade classrooms and facilities to help children keep a safe physical distance from one another.
- Part of this bond will be used to transform paved schoolyards into green schoolyards, which feature trees, gardens, and community-designed recreational spaces.
- The district pays millions of dollars in rent each year for a building to house its central administration. This measure will eliminate the need for those rent payments by repurposing an unused school site for administrative use.

The Center: Central Kitchen & Education Center

The Center is our new central commissary:

The 40,000 sq. ft Central Kitchen is built to prepare 35,000 fresh student meals daily and is capable of supporting bulk prepped, bulk prepared and individual packaged meal distribution.

The project includes facilities for receiving and shipping, storage (including bulk freezers and refrigerators), food-preparation, bulk staging equipment, washing, waste treatment, educational training kitchen/classroom, as well as 10,000 sq. ft. of administrative space. The outdoor space includes a teaching garden and future phase farm.

PROJECT DESCRIPTION

Replacement of 21 classrooms, library, cafeteria, multipurpose room, stage and administrative offices

The new building replaces the old seismically substandard classroom building and dilapidated relocatables.

The new classroom building features:

Optimized daylighting and natural ventilation.

A multipurpose room with oversized garage doors to promote blended inside/outside activities. A courtyard area to foster outdoor activity with less impact on the neighborhood.

Existing main entry and accompanying façade. New accessible (ADA) ramps provide accessibility from street level to the main entry doorway.
Glenview Elementary School: Hallway to Multipurpose Room and Courtyard
Budget Funded By: $36.4M

PROJECT DESCRIPTION:
New high school classroom building, including 14 classrooms, 2 labs, 6 offices, in addition to other staff workspaces.

Also, renovations of existing parking to remove access barriers and provide safer drop off areas.

Two interim housing portables and restrooms installed Fall 2017.

This project is in support of the Board designation of Madison as 6-12 programs to support a full high school programs as an addition to the existing middle school campus.
